"Too Much Wealth In the Hands of a Few People"

In the countryside, in streets of villages, towns and cities; in homes, in market places, from pulpits and public platforms; from men in many walks of life you hear the same pronouncement—"Too much wealth in the hands of too few people."

Who can rectify such an unsatisfactory state of affairs?

In many instances the people themselves have the remedy.

In the grain business the grain growers have the remedy in their co-operative marketing organization. All they need to do is to give their patronage.

Co-operative organization is the most effective means of preventing accumulation of great fortunes in the hands of a few people.

Co-operation never makes millionaires.

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LOWER PRICES — HIGHER QUALITY

EVER since 1920 the price of gasoline has steadily declined. Few people realize this however because during the past ten years as the price dropped the tax increased. In 1923 there was no provincial gasoline tax and the average price of gasoline to retail dealers across Canada was 27¹/₁₀ cents per gallon. Today the average price of gasoline to retailers is 18⁸/₁₀ cents but to this is added a tax of from six to eight cents per gallon which goes directly to the provincial governments. Not only has the price of gasoline fallen steadily since 1920 but the quality has

consistently improved. The gasoline consumer today gets more value than ever before.

Sometimes you hear talk of large profits earned by the gasoline refiner. In 1934 Imperial Oil earned \$3,023,400.12. This may seem to be a large sum but to earn it Imperial Oil had to make and market gasoline and other products amounting in value to \$82,841,311.15. That is to say Imperial Oil's earnings were relatively no greater than those of a merchant who, selling \$8,280 worth of goods in the course of a year, made a net profit of \$300.
